GHS CR-GBL 10-46 Sub-Zero Boomers - Žice za električnu gitaru

The strings are frozen down to a temperature of -300°F and gradually restored to room temperature, a process which imparts the strings with increased brightness, heightened resistance to corrosion, and greater tuning stability.

Designed for heavy metal, rock, country, blues, and pop styles, these strings produce a bright, long-lasting tone, with the gentle feel of nickel.

Light roundwound cryogenically treated string set made with a quality steel core wire wrapped in a round, nickel-plated cover

Strings are frozen with liquid nitrogen to a temperature below -300°F, imparting them with increased brightness, heightened resistance to corrosion, and improved tuning stability

Bright, long-lasting tone

Suitable for a wide array of musical genres
