

## SVS SB-1000PRO White high gloss Aktivni vufer

Šifra: 15320  
Kategorija proizvoda: Hi-Fi Subwooferi  
Proizvođač: SVS

**Cena: 1.664,00 KM**

### SVS SB-1000PRO White high gloss Aktivni vufer

Multiple innovations were deployed in the high-excursion 12-inch SVS SB-1000 Pro driver to ensure massive subwoofer performance from a relatively compact cabinet. Advances to the cone, surround, voice coil, and motor assembly maximize excursion for room-energizing SPLs at the lowest frequencies, with precision and control.

Using reference amplifier technology from the flagship SVS 16-Ultra Series, the SB-1000 Pro features a 325 watts RMS, 820+ watts peak power Sledge STA-325D amplifier with fully discrete MOSFET output. Harnessing the immense power while ensuring tonal accuracy and driver control for more convincing bass effects is a 50 MHz Analog Devices Audio DSP with frequency response precisely tuned for the SB-1000 Pro.

SB-1000 Pro also features the SVS subwoofer smartphone app, the most convenient way to control volume, access multiple DSP functions, and program custom presets. Adjust crossover frequencies, a three-band parametric EQ, polarity, room gain and more, all from your favorite seat.

performance.

**SB-1000 Pro Smartphone App - Easiest way ever to manage subwoofers with DSP and control. 12-inch SVS High-Excursion Driver - Room-shaking bass with subtlety and refinement.**

The most convenient way ever to control volume, access multiple DSP functions, and program custom presets for one-touch tuning optimized for music, movies, gaming, and more. Adjust crossover frequencies with dial-in the three-band parametric EQ, polarity, room gain and more, all from your favourite seat.

Maximizing every available square-inch of surface area, SVS packed a high-excursion 12-inch driver and dual ferrite motor assembly into an acoustically inert, 13-inch cabinet. Thermal management is critical when dealing with such a powerful amplifier and motor in a relatively compact sealed cabinet. SVS engineered a vented pole piece and efficient

**Subwoofer Specs:**

- Protective non-resonant extra-thick ABS fabric mesh grille**
- Iso-elastomer feet included**
- Extra heavy-duty, high current power cord 6'**
- Quick Start Guide**
- Unbalanced stereo input/output**
- Speaker Level Stereo Input**
- Auto/On and Trigger options through app, 3-12V AC/DC trigger**
- RoHS compliant, lead-free construction, world-wide safety certifications**
- Green 0.5-watt low standby power consumption**

**Dimensions (w/ grille): 13.5" (342mm) H X 13" (330mm) W X 14.76" (375mm) D**

**Dimensions (without grille): 13.5" (342mm) H X 13" (330mm) W X 13.9" (352mm) D**

**Shipped Dimensions: 17.4" (455mm) H 17.4" (442mm) W X 18.4" (471mm) D**

**Weight (unboxed): 26lbs (11.9kg) with Grille**

**Shipped Weight: 31.1lbs (15kg)**

**Driver Specs:**

- All-new proprietary 12-inch long-throw driver with high-precision tuned overhung motor configuration.**
- 8.33lb (3.78kg) pound Woofer with 5.73lb (2.6kg) pounds motor**
- 13.3mm Xmax, 26.9mm Xmech precision aligned excursion**
- 1.5" diameter Voice Coil with high current 6-layer high-purity copper wire windings**
- Premium high-purity copper voice coil winding design minimizes distortion and power compression with maximum heat dissipation, linearity, and tuned magnetics for high excursion**
- Two-piece high grade oversized Y30 Ferrite magnet motor**
- High Temperature 3003-H18 aluminum former/bobbing**
- 6" composite cotton-poly extreme excursion linear spider**

**Dual 24-strand copper-alloy high-temperature leads**

**Proprietary injection molded gasket and NBR extreme-excursion surround**

**Lightweight treated Fiber Composite cone for enhanced sensitivity and transient response**

**Top plate assembly with low carbon 1010 steel for optimal magnetics**

**Oversized low carbon 1008 steel T-yoke with integrated pole piece extension for maximum**

**cooling and electromagnetics**

**12" premium powder coated basket with FEA optimized analysis for maximum rigidity, tensile strength, and energy transference**

**Oversized motor system for driving full excursion and industry best SPL, with pinpoint transient speed**

**Precision machining for motor and narrow tolerance suspension parts ensure flawless linearity at full range of excursion**

## **SVS Sledge-325D Amplifier Specs:**

**325 watts RMS, 820+ watts peak power output  
Class D design**

**50Mhz Analog Devices Audio DSP, high resolution double precision 56bit filtering**

**Wide input voltage bandwidth compliant for consumer and pro audio up to 4V line level input.**

**High efficiency LLC resonant SMPS with 17A 650V MOSFET, resonant switching results in lower EMI and highest efficiency.**

**Cool-running Class D amplifier switching topology with massive 34A 120V MOSFET's**

**SVS BLE control app for iOS and Android contains 3 complete name-able and customizable User presets, supports IOS (iphone5 or newer or Android (4.42 or newer), 3 PEQ's per preset, adjustable low pass, phase, polarity, room gain compensation, and control for best alignment with speakers.**

**Customer EQ and DSP limiter settings specifically for the 1000 Pro**

**Input impedance 16kohm (unbalance RCA)**

**Input impedance 20kohm (speaker level)**

**New Intelligent Feature control (IFC) user interface on the amplifier with bright blue 11 LED bar display and easy push-button controls.**

## **SVS App Specs:**

**Bluetooth controlled subwoofer DSP smartphone app works with iOS, Android and Amazon operating systems.**

**Easiest and most convenient way to adjust crossover frequencies, parametric EQ, polarity, room gain and all other bass management functions.**

**Three convenient custom presets allow for perfect tuning in any room or system, from your favorite seat.**

**Unique bidirectional feedback shows adjustments in real time on both app and subwoofer interface.**

**Easy-to-follow tutorial provides clear guidance for all functions.**

## **Accessories:**

Protective non-resonant extra-thick ABS fabric  
mesh grille  
Iso-elastomer feet included

Extra heavy-duty, high current 6-foot power cord  
Quick Start Guide

Driver	12"
Amplifier	325 watts RMS (820W peak)
Frequency Response	20Hz to 270Hz (+/-3dB)
Weight	11.9kg
Dimensions	(H x W x D mm): 1016 x 1016 x 1016
Finishes	Black Ash, Gloss Black
