

MACKIE Thump18S - Aktivni vufer

Šifra: 15461

Kategorija proizvoda: Aktivni Subwooferi

Proizvođač: MACKIE

Cena: 1.564,00 KM

Featuring a built-in crossover at 140 Hz, stereo high-pass outputs, and full-range outputs, the Thump18S allows you to connect top speakers and additional subwoofers without any extra hardware. Using efficient Class-D amplification and a dynamic bass frequency response, the speaker is designed to deliver a clear and present low end at any volume.

Features:

Professional band-pass design for maximum output and deep, room-filling lows

18" custom high-output woofer

Class-D amplification designed for cool running

Precision 140 Hz crossover

Tuning filters deliver highly accurate bass response

Robust system protection

Dual XLR inputs for mono or stereo applications

Stereo high-pass outputs optimize sound when connecting top boxes

Stereo full-range outputs perfect for adding more subwoofers

User-adjustable level and polarity controls

Easily mount your full-range loudspeaker via pole cup
