**Cena: 116,00 KM**

The EM-89D utilizes a cardioid polar pattern, which rejects sound behind the mic to reduce the pickup of stage bleed and allow higher gain before feedback. The mic's dynamic moving-coil design requires no batteries or phantom power, and the balanced 3-pin XLR output ensures proper connectivity with stage boxes, mixers, and portable PA systems. The EM-89D includes a mic clip, an XLR cable, and a zipper pouch.
