NEO by Oyaide d+RCA class S 1m

Šifra: 16087
Kategorija prozivoda: Linijski Kablovi
Proizvođač: NEO by Oyaide

Cena: 110,00 KM

With extra care to the build of each cable, Oyaide was able to provide the best RCA cable ideal for live performance or studio production while also being stylish in its color and design. Highly durable, these cables can be used and abused and still perform like new.

Built for Serato DJ, NI Traktor

Excellent for vinyl record digitization

The d+ series of audio cables are used by DJs, DTM users and audiophiles around the world to transcend genre of use and improve the quality of their systems. Combined with their stylish design, they are used at many of the world's most famous clubs and festivals. However, when the supply of the PCOCC conductor were discontinued, the former Class S series was forced to temporarily cease production.

However, its survival is now being carried on by the precision conductor "102SSC" which has been created with unprecedented precision and technology.

The d+ RCA Class S rev.2 has a new flavour and is sure to attract even more attention.

The diameter of the d+RCA class S rev.2 is 16AWG, which is the largest in the series. This suppresses the resistance of the conductor and greatly contributes to the reduction of signal loss.

Features

The d+RCA class S rev.2 has the largest conductor diameter of the series at 16AWG, Less conductor resistance than Class A and less signal loss. It will make a significant contribution

With the 102 SSC, the clean, undistorted sound quality allows you to focus on the music, even during long hours of DJing, songwriting and listening

The plugs are plated with a combination of platinum and rhodium for accurate phase and excellent bandwidth balance

The platinum and rhodium plating is highly durable and maintains transmission performance for a long time

The flat design of the cable, which is instantly recognisable as "d+", avoids the transmission loss, impedance changes and capacitance changes caused by internal cable distortion when the cable is bent

In addition to sound quality, we've also designed an excellent motivational design, cable and plug colours that are easy to identify even in the dark

The d+RCA classS rev.2 series comes with a cable case

The cable can be easily stored in the case for easy transportation

It cannot be used with analog turntables, except for a few devices

This cable is not shielded

Product Specifications (Oyaide NEO d+ RCA Class S):

CABLE: analog audio cable (RCA connector)

FLAT CABLE TWISTED STRUCTURE: reverse concentric

CONDUCTOR: PCOCC-A (0.18mm × 52)

SHEATH: Thermoplastic Elastomers

INSULATOR: Polyolefin

TERMINAL: Platinum Plating + Rhodium-Plated Bronze Alloy Coating

HOUSING: PBT + Glass Fiber

OUTER COVER: Aluminum

SOLDER: Acoustic -Only Oyaide SS-47

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
