MACKIE Thump212 - Aktivni zvučnik

Šifra: 16856
Kategorija prozivoda: Aktivne Zvučne Kutije
Proizvođač: MACKIE

Cena: 782,00 KM

Mikser **Thump212** ima dva XLR 1/4"-na Mic/Line kanala sa pripadajućim Gain kontrolama, dok XLR izlaz omogućava lako povezivanje dodatnih zvučnika u lanac. 3.5-milimetarski TRS Aux ulaz raspoloživ je na drugom kanalu, za povezivanje vašeg omiljenog prenosivog plejera. Čvrsta šasija od polipropilena otporna je na bilo kakve spoljašnje uticaje, i garantuje da će uređaj biti sačuvan od potencijalnih oštećenja pri transportu. Na donjem delu kabineta prisutni su i žljebovi za montiranje. Tu je i mogućnost upotrebe **215XT**-a kao podnog monitora (ugaoni dizajn), za koncertni/izvođački monitoring na bini.

Performance for a New Generation
These are the loudest, most powerful, and best sounding Thump loudspeakers ever, and they are ready to take on your most demanding gigs. Completely redesigned from the ground up, Thump has beefier drivers, 1400W Class-D amplifiers, and powerful tools to make your next gig easier than ever.

Music Ducking
You've got music playing nice and loud, but it's time for another announcement. Sure, you could mess with your levels every time, but who's got time for that. Simply press the Music Ducking button, and channel 2 will automatically turn down whenever you speak into the mic on channel 1.

Feedback Eliminator
Ever get a little too up close and personal with the microphone only to hear a loud, ear-destroying squeal? That's commonly known as feedback. And it's an unfortunate issue that physics won't change its mind on. But wait! Hit the Feedback Eliminator button and laugh in the face of those silly acoustic laws.
