THX Certified
In 1993, Onkyo became the first consumer electronics brand to be THX-certified. With literally thousands of tests, before earning the THX-certification logo: no matter what input is used, no matter what combination of the many built-in features for the AVR, preamplifier, or amplifier, there can be absolutely nothing added, nothing taken away from the source material. The TX-NR7100 offers four distinct THX listening modes: cinema, gaming, music, and surround EX.

Discrete Zone 2 HDMI Switching
Set up different Ultra High-Definition entertainment options with up to 8K60 resolution* in two different rooms from your Onkyo receiver. Watch a movie in the home theater, while the kids watch cartoons in their playroom.*

*8K60 only valid for Zone 1/Zone 2 will only produce 4K120 resolution when two separate HDMI sources are used.

Ultimate 4K Gaming Experience
Own your opponents with HDMI 2.1 enhancements for gamers: 4K/120Hz HDR pass-through enables ultra-fast motion -VRR (Variable Refresh Rate) eliminates lag, stutter, and frame-tearing for fluid gameplay. - ALLM (Auto Low Latency Mode) optimizes latency from source to screen - QFT (Quick Frame Transport) limits lag for a smoother experience.

Built-In Streaming Services
Access to Spotify®, TIDAL, Deezer, TuneIn, and Pandora® are built into the system. Use dedicated apps (where available) or the free Onkyo Control App for Apple and Android devices to find and play music.
