C05 Connection cable: straight, 1.5 m long, with 3.5 mm jack plug incl. adapter
Weight: 0.16 kg

Modular DJ headphones with balanced sound for DJ performance and music exploration.

Signature bio-diaphragm drivers engineered to deliver high volume levels and minimise distortion when performing in loud environments. Weighing only 168g for enhanced comfort over extended periods of time.

**BALANCED SOUND, PUNCHY BASS**

Critically acclaimed sound specifically designed for live performance. Punchy bass and balanced sound for DJ performance and music exploration.

The speaker unit contains a bio-cellulose diaphragm made from bacterial cellulose, an organic compound grown using certain types of bacteria. The precision-grown diaphragm from bio-cellulose is stiffer, lighter, and stronger than regular PET speaker units, allowing the sound-producing diaphragm to vibrate without the levels of distortion found in other speakers.

Each of these qualities results in more accurate and detailed sound from the speaker with the ability to retain clarity of sound at high volumes.

**LIGHTWEIGHT AND DURABLE**

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
