VONYX MEG150 200W

The

MEG150 features Bluetooth connectivity and an integrated MP3 player accessible via USB and SD card slots. This allows you to play pre-recorded messages, music, or announcements directly through the megaphone. The wireless capability adds versatility, enabling seamless audio streaming from compatible devices.

Built with robustness in mind, the megaphone boasts a sturdy construction with a rubber bumper edge. This durable design protects the unit from impact and wear, ensuring it withstands the rigours of frequent use. The ergonomic handle, carry strap and lightweight build make it comfortable to carry during prolonged periods.

The Vonyx MEG150 includes a record function and siren alert, enhancing its utility in various situations. The record feature allows you to capture and replay messages, while the siren alert can be used for emergency warnings. These additional functions make this loudhailer a versatile tool for professionals.

Key Details

- The megaphone features a powerful 200W output, providing loud and clear sound, ideal for large outdoor events. Its premium construction ensures durability and performance for demanding environments.
- It includes a rechargeable battery, offering the convenience of cordless operation and eliminating the need for frequent battery replacements. This makes it suitable for extended use without concerns about power supply.
- The megaphone is equipped with Bluetooth connectivity, allowing for wireless audio streaming from smartphones or tablets. Additionally, it supports MP3 playback through USB and SD card inputs for versatile media options.
- Designed with a robust build, the megaphone features a rubber bumper edge for enhanced protection against impacts. This ensures it can withstand rough handling and outdoor conditions.
- A built-in record function allows users to save important messages for playback, while the siren alert provides an attention-grabbing sound for emergency situations. Both features add to its functionality for crowd control or safety announcements.
