NEKTAR Impact LX25+ - Midi Klavijatura

Šifra: 11622
Kategorija prozivoda: do 25 dirki
Proizvođač: Nektar

Cena: 194,00 KM

IMPACT LX25+ CONTROLLER KEYBOARD

The 25 note velocity sensitive keyboard is a synth action with a medium tension. The full-size, piano-style keys are covered to protect against dirt and dust while also complementing the Impact LX design. With 4 velocity curves gradually increasing in dynamics there is a choice for any playing style. If you don't need velocity, 3 fixed velocity levels cater for a consistent output. Octave and transpose buttons as well as pitch bend and modulation wheels are within reach, so you can quickly shift the keyboard up or down as needed, or apply additional articulation with the wheels.

OCTAVE & TRANSPOSE BUTTONS

There is more to the 4 Octave & Transpose buttons than meets the eye. 4 functions are selectable on the fly so you can make important changes at any time, even while you play. A key combination makes assignment quick and easy. Choices include sending out MIDI Program Messages, change the Global MIDI Channel or select any of Impact LX25+'s 5 user presets with either the Octave or Transpose buttons.

CONTROL CENTER

A 30mm fader and 8 pots are at the center of the Impact LX25+ control panel. Each control is fully programmable to send any MIDI CC message for use with hardware or software MIDI products. Used with Nektar DAW integration, the controls take on a life of their own, providing flexible pre-mapped DAW control giving you the best of both worlds. Control settings can be stored in any of the 5 Impact LX25+ presets for recall at any time. And if you switch Null on, any parameter values are stored when you change presets so you avoid parameter jumping.

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
