HANG TIME WITH MARTIN HAZE

RUSH & THRILL Haze Fluid has some serious hang time. Lasting upwards of one hour in the atmosphere, RUSH & THRILL Haze Fluid ensures a smooth field of persistent haze that will accent your lighting all night long. Longer hang time with Martin haze means less concern on keeping the haze machine full of fluid, so you can focus on your show. Because our fluid hangs longer, it lasts longer too, saving you time and money.

MARTIN HERITAGE

For 30 years, the Martin brand has been the leading choice of professional lighting designers, rental and production houses, and installers across the global architectural, commercial, and entertainment lighting markets. With the RUSH & THRILL series, Martin is bringing its industry-leading excellence in dynamic light and visual effects to new audiences by providing more affordable and easier-to-use models, while still retaining a die-hard dedication to quality and our customers.

PREMIUM EFFECTS FLUIDS BY MARTIN

Martin fluids are produced at our state-of-the-art, semi-automated fluid production facility in the United Kingdom. A virtually sterile environment is our guarantee of a pure and precise product that delivers the same effect over and over again. This means that Martin fluid never comes in contact with the environment, or humans, thereby ensuring a 100% bacteria free and sterile fluid. Our production facility is ISO 9001 accredited, an internationally recognized standard of quality in manufacturing standards, documentation and administrative procedures ensuring superior quality and safety of the materials being used in our fluids. Nowhere else in the industry will you find the same attention to detail, safety and environmental consciousness. Martin fluids are also widely available throughout the world ensuring your show will go on.
